We are not going to sugarcoat the fact that alcohol addiction detox is challenging and extremely difficult. But with the right kind of support, and knowing that you are not alone, makes it that much more achievable.

Alcohol addiction detox has 3 distinct stages and our team will be there with you every step of the way, with individualized treatment plans and 24/7 care and support. There is no fixed timeline for recovery and we will help you to overcome your addiction in your own time.

There will be difficult withdrawal symptoms, and each stage will have its own low points, but you can be safe in the knowledge that you will experience your withdrawal in a safe and controlled environment with professionals to help and guide you through the rough patches. The road to complete recovery is a process, so seeking the right treatment is crucial and that depends on the intensity and length of your addiction as well as how mild or severe your withdrawal symptoms might be.
