Opioid Detox, Rehab, and Addiction Treatment in Ohio

VERIFY MY INSURANCE

When don't you at the opioids are treated in Ohio, it's difficult to recognize that they are easily abused. Misuse of some of these drugs often leads to addiction.

To overcome opioid addiction, you need treatment, care, and support from an opioid addiction treatment program. Attending an addiction treatment rehab in Ohio can help you not only conquer the addiction to opioids but also restore your life.

Opioid Addiction Treatment in Ohio

Thanks to a concerted effort from the government, medics, and residents, there're now better options for addiction treatment and recovery in the state. One of the top addiction treatment centers in Ohio is the Findlay Recovery Center.

We offer a variety of evidence-based drug and alcohol treatment programs designed to help people turn their lives around. We pride ourselves on offering affordable, tailor-made rehab treatment programs with a focus on individual recovery goals.

Before admission to one of our treatment programs, we'll conduct a simple pre-assessment to ensure we're a good fit for you. We will also verify your health insurance to know what your payment options are. We work with most major insurance carriers to help cover most of the costs associated with treatment. That way, we can ensure that addiction treatment remains affordable and available to as many people as possible.

Opioid Detox and Rehab Treatment in Ohio

Detox

When getting started on opioid addiction treatment, the first step is usually detoxification. Our detox program is designed to help the body cleanse itself of any opioids. This important step allows the body to metabolize any harmful toxins in the system and allows you to become physically stable enough to immerse yourself in a treatment program.

Depending on the severity of the addiction, medically assisted detox may sometimes be necessary to help you manage and cope with withdrawal symptoms while reducing cravings.

Rehab Treatment

After detox, you'll proceed to rehab where you can attend either residential addiction treatment or outpatient treatment. At Findlay Recovery Center, we provide inpatient treatment programs that specialize in offering individualized treatment plans based on your unique recovery goals. Residential treatment means that you'll spend both day and night at the rehab facility in Ohio where we have spacious double rooms with private bathrooms.

Our treatment includes individual, group, and family therapy using evidence-based treatment methods such as cognitive behavioral therapy (CBT), traditional talk therapy as well as integrative and experiential therapy.

Aftercare Plan

We understand that recovery doesn't end after rehab. It's a lifelong process. That's why we work with our clients to give them a robust aftercare plan including sober living homes and connections to support groups to give them the support they need to continue on their recovery journeys after treatment. Don't allow an opioid addiction to take any more of your life. Contact Findlay Recovery Center in Ohio today and let us help you rebuild a life free from addiction.
