About The Findlay Center in Ohio

Given the complexities of recovering from an addiction, the vast majority of people struggle with it much more when tried alone. Expertise and assistance, as well as access to the right tools, are commonly associated with higher levels of long-term success and that is precisely what the Findlay Recovery Center aims to offer via our individually tailored plans.

Making use of resources such as our welcoming and accommodating premises, treatment and therapy specialists, and professional providers of care in every part of our detox and addiction center in Ohio, we are here to help and support anyone who wants to beat addiction.

Benefits of a Detox & Addiction Treatment Center For Ohio Residents

There are many benefits to working with our team at the Findlay Center; our flexibility to your needs is chief amongst them. This includes treatment plans of varying lengths, with both long-term and short-term detoxes available. All decisions on treatment plans are decided with the help of a medical professional who takes an in-depth look at the particulars of each case.

With the help of a medical professional, a range of treatment, therapy, and other tools are made available to ensure that your **recovery from addiction** can begin with the best possible first step. This includes a safe and comfortable environment, medical treatments, a range of therapy methods, and more. Our aim here is to help you ensure the right approach to a drug-free life and we will use every tool available to ensure that.

What to Expect from an Ohio Detox & Addiction Treatment Center for Ohio Residents

If you live in Ohio, then the Findlay Center is close at hand and ready and willing to accept you. However, you may want to know how exactly the process works. It is not as intimidating as it may first sound, and we are here to help guide you into every step of your treatment plan as best as possible.

Addiction treatments typically start with a detox. While detoxes can be difficult to experience, the very best care and monitoring are provided to ensure that it is managed as safely as possible. We have a team of expert nurses, doctors, and psychiatrists ready to help you through it.

The duration of your stay following a successful detox will depend on your needs, including the type and severity of the dependency. However, our aim is to help you be ready for the rest of the recovery plan as soon as possible. The worst of the withdrawal symptoms associated with detox typically subside after 48 hours, from which point we will work with therapy and teaching coping mechanisms to ensure a successful recovery.
